19. When an owl hunts, what sense does it use during night?
20. What do pigeons feed on?
21. How does a chick get out from inside of an egg?

Make a circle around the correct answer:

22. Respiration of chicks inside of egg is realised:

- a) oxygen is inside the egg already
- b) oxygen goes through the coverings of the egg
- c) chicks breathe only after hatching

23. How long a distances are birds able to fly during migration?

- a) 50 km
- b) 500 km
- c) 5000 km

24. Which sex of birds sing?

- a) males
- b) females
- c) both sexes

25. Which sex cares for chicks of house swallow?

- a) males
- b) females
- c) both sexes

26. When does owl have better vision?

- a) during day
- b) during night
- c) it is the same during the day and night

27. Which sex (male or female) incubates eggs of house sparrows?

- a) males
- b) females
- c) both sexes

28. Are birds able to see:

- a) only black and white colour
- b) different colours

29. The cuckoo is well known-because:

- a) it abandons its own chicks after hatching
- b) it lays its own eggs into nests of other birds

30. What is on the skin of penguin?

- a) hair
- b) uncovered skin
- c) pelaged feathers?

31. Does a house sparrow have during its lifetime:

- a) only one female mate
- b) several female mates

32. Which animals on the pictures are birds? (make a circle on a correct answers)

a)

c)

b)

d)

e)

f)

g)

h)

Grade.....

Sex: female male

Residence: village town
